

TRACING LINES

TRACING LINES

TRACING LINES

This worksheet is designed for tracing practice. It consists of eight horizontal rows. Each row begins on the left with a green, spotted frog-like creature with large eyes. A dashed, wavy line extends from the creature across the width of the page. On the right side of each row, the same green frog-like creature is positioned, facing left towards the dashed line. The purpose of the dashed line is for a child to trace it from left to right, connecting the two frog illustrations.
